

# Nada Badawy Fathy

## Frontend Developer

[+201151727517](tel:+201151727517) | [nadabadawy60@gmail.com](mailto:nadabadawy60@gmail.com) | [Portfolio](#) | [Github](#) | [LinkedIn](#)

Beni Suef, Egypt

## Profile Summary

---

I am a Front-End Developer specialized in building modern and interactive user interfaces using **React**, with strong experience in UI/UX design and API integration. I have a high ability to transform ideas into smooth user experiences and develop fast, well-structured, and dynamic pages. I am detail-oriented, a fast learner, and skilled at problem-solving, with the ability to work effectively within a team and deliver high-quality results on time. I am always committed to developing my skills and keeping up with the latest trends in front-end development.

## Education

---

### Faculty of Computers and Artificial Intelligence

2021 – Present

Bachelor's Degree in Information Technology (IT)

## Experience

---

### Front-End Developer

2023 – Present

- Developed modern and interactive user interfaces using **React.js** and **JavaScript**.
- Translated **UI/UX designs** into clean and smooth code.
- Integrated front-end with **APIs** and managed data efficiently.
- Built dynamic and fast-loading pages with optimized performance and improved user experience.
- Worked on a variety of projects including:
  - **E-commerce** (product pages, cart, account, categories).
  - **AI Projects** such as sentiment analysis and facial expression analysis.
  - **Dashboards** for data management and control panels.
  - **UI design** and complete navigation systems for applications.
- Contributed to the graduation project **My Mirror**, which included:
  - Text analysis using **Transformer Models**.
  - Facial expression analysis using **EfficientNet**.
  - Front-end integration with the **Backend**.
- Improved code quality, fixed bugs, and enhanced **UX**.
- Collaborated with diverse teams in an **Agile** environment.
- Used **Git** and **GitHub** for version control and project management.

# Technical Skills And Tools

---

HTML / CSS / JavaScript / Typescript / React.js / Bootstrap / Tailwind CSS / Git & Github / VS Code /  
Firebase / Figma / Material UI / Redux / Postman / Netlify / Canva / Chatgpt / UI/UX Design / Sass /  
OOP / C++ / Python / Java

## Projects

---

- **Edu Platform Test (Team Project)** — [Demo](#) | [Repo](#)

A comprehensive educational platform built with **React**. The project includes user registration, course listings, and a clean UI for learning management.

**Technologies: (React, React Router, TypeScript, Bootstrap)**

- **Graduation Project - My Mirror (Team Project)** — [Demo](#) | [Repo](#)

A graduation project integrating AI features for **facial expression recognition** and **text emotion analysis**. Built with React on the frontend, providing a fully interactive user experience.

**Technologies: (React, React Router, JavaScript, TailwindCSS, Rapid, Material UI)**

- **Trendy Wear Admin Dashboard** — [Demo](#) | [Repo](#)

An admin dashboard for Trendy Wear, built with **HTML, CSS, and React**. Features dashboards, analytics, product management, and review sections.

**Technologies: (React, React Router, JavaScript, TailwindCSS, Material UI)**

- **ChatGPT OpenAI Interface** — [Demo](#) | [Repo](#)

A custom React interface integrating OpenAI's **ChatGPT API**. It allows users to chat with an AI in Arabic with a personalized design and interactions.

**Technologies: (React, JavaScript, CSS, Rapid)**

- **E-commerce App - Fashion** — [Demo](#) | [Repo](#)

A React-based e-commerce app for fashion products. Features include product listing, filtering, shopping cart, and a smooth responsive design.

**Technologies: (React, React Router, JavaScript, Bootstrap, Rapid)**

- **My Portfolio (Personal Project)** — [Demo](#) | [Repo](#)

A personal portfolio website built with **React** to showcase my projects, skills, and experience. The portfolio includes interactive components, project galleries, and a modern responsive design for both desktop and mobile.

**Technologies:**(React, JavaScript, CSS, Material UI, Framer Motion, Json file)

- **Image Search Engine** — [Demo](#) | [Repo](#)

A React-based image search application that fetches data from the **Unsplash API** and displays results dynamically, with options to load more images.

**Technologies:** (React, JavaScript, CSS, Rapid)

## Certifications

---

- Mern Stack Development from ITI
- Python Programming Course - Ministry of Communications and Information Technology

## Languages

---

Arabic: Native

English: Very Good (Reading, Writing, Speaking)
