PROFILE SUMMARY

I am a Front-End Developer with over one year of experience in building modern and responsive web interfaces using React.js, with strong experience in UI/UX design and API integration. Ihave a high ability to transform ideas into smooth user experiences and develop fast, well-structured, and dynamic pages.I am detail-oriented, a fast learner, and skilled at problem-solving, with the ability to work effectively within a team and deliver high-quality results on time. I am always committed to developing my skills and keeping up with the latest trends in front-end development.

EXPERIENCE

Front-End Developer — (Self-Learning / Projects)   2023 – Present

- Developed multiple responsive web applications using **HTML, CSS, JavaScript, and React.js**.
- Converted **UI/UX designs into fully functional, pixel-perfect web interfaces**.
- Built reusable **React components** and organized code using clean structure and best practices.
- Integrated external **APIs** to fetch and display dynamic data efficiently.
- Implemented **state management** using React hooks (useState, useEffect).
- Created websites optimized for speed, accessibility, and SEO basics.
- Applied **Flexbox, Grid, Tailwind CSS, and Material UI** to build modern layouts.
- Built interactive forms with validation and custom UI behaviors.
- Fixed UI bugs and improved performance across different devices and browsers

EDUCATION

Bachelor's Degree in Information Technology (IT),   2021 – Present
Faculty of Computers and Artificial Intelligence
